VERSE 1

G C G
I saw a river running clear as the morning light
Em C G D
Flowing from the throne of God and of the Lamb
G C G
Through the middle of the city like a ribbon burning bright
Em C G D
Carrying the life of everything that ever was and is
G C G
On either side the tree of life was reaching to the sky
Em C G D
Bearing fruit for every season every turning of the year
G C G
And the leaves were for the healing of the nations standing by
Em C D G
And everything that broke us – it was gone from here

CHORUS

C G D Em
We will see his face we will know his name
C G D
We will walk the streets from where the river came
C G D Em
No more darkness no more night
C G D G
Just the throne of God and the endless light
C G
And we will reign forever
D Em
Reign forever
C D G
Reign forever more

VERSE 2

G C G
No more shadow of the curse that drove us from the garden
Em C G D
No more weight of all the distance we have run
G C G
Every stone that broke the road and every heart grown hard and
Em C D G
Weathered by the turning of the sun
G C G

His servants stand before him with their faces finally free
His name upon their foreheads like a brand of love and grace
What was lost in the beginning is restored in what will be
When we gather at the river and we see him face to face

CHORUS

We will see his face we will know his name
We will walk the streets from where the river came
No more darkness no more night
Just the throne of God and the endless light
And we will reign forever
Reign forever
Reign forever more

BRIDGE

In the beginning there was hollow there was dark
A word moved on the water breathed the world to life
And all the long road from that first and ancient spark
Has been leading to this river clear as light
He made us for this moment made us for this place
To walk with him and reign beside the one who holds all things
And now at last we're standing here before his open face
And the sound of many waters rise as praise

CHORUS

We will see his face we will know his name
We will walk the streets from where the river came
No more darkness no more night
Just the throne of God and the endless light

And we will reign forever

D **Em**
Reign forever

C **D** **G**
Reign forever more

CLOSER

G **C** **G**
The river runs forever

D **G**
And so do we
